All data can be ingest to Azure storage.
Information includes:

- Contract details
- Milestone tracking and deadlines
- Sales status
- Vendor/contractor details
- Customer feedback and surveys
- Task assignments and progress

- Legal documents and agreements
- Product specifications and catalogs
- Meeting notes and minutes
- Project planning documents
- Compliance reports

Data Sources

- For **static data** that rarely changes, such as contracts, tender documents, or Project works order, we can simply upload them as PDF or Word files.

- For **dynamic data** that requires constant updates, such as Contractors/vendors managements, Project status updates, Milestone tracking and deadlines, Task assignments and progress.
  We can input the data through Azure SQL
